Benefits Plan For Community Water Suppliers in British Columbia

Thank you for your interest in this Benefits Plan for community water suppliers in British Columbia. This plan is open to employees, volunteers, trustees & directors with community water supply organizations. The Edge Benefits Plan is brought to you through the Sustainable Infrastructure Society and our Industry Partners AON Reed Stenhouse. You contract directly with AON Reed Stenhouse for these services.

The Edge Benefits Plan provides you and your staff with “lifestyle protection”. The plan provides injury and illness benefits to age 70 and offers a more beneficial definition of disability as compared to other simplified solutions on the market. Benefits are based on Earned Income or Gross Revenue. You may add additional benefits to suit your individual needs, including Accidental Death and Dismemberment, Business Overhead Expense, Health & Dental benefits and the Edge Travel Medical Emergency plan.

A monthly premium is charged for your benefits coverage. The amount of the premium for disability coverage depends on age and income. Once you complete and submit an application it will be reviewed by an experienced insurance agent. Following review of your completed application you will be contacted with a quote for your premium and you will be provided with further information.

You can read more about the plan benefits at our web site at:
